

This circular is issued to ensure the continuity of business and the implementation of industrial activities that are directly related to economic and social aspects.

For this reason, it is important for industry associations, industrial companies and industrial estate companies to pay attention to the Minister of Industry Regulation No.4 / 2020 in carrying out their business activities during periods of large-scale social restrictions (PSBB).

Minister of Industry Agus Gumiwang Kartasasmita published this circular on Tuesday (7/4/2020). The following provisions are for business people and workers in factory operations.

For industrial companies and / or industrial estate companies:

- Perform initial screening for all workers through body temperature checks.
- If unhealthy workers are found, it is prohibited to participate in company activities and it is recommended to have a check-up.
- Ensuring workers who are unwell and have a history of travel from a country or zone with local transmission of the corona virus, isolate themselves for 14 days and not enter the factory area.
- Ensure that the work area has good air circulation and has adequate facilities for washing hands.
- Ensure the availability of soap and running water for hand washing or alcohol-based hand washing and masks.
- Increase the frequency of routine cleaning in commonly used areas.
- Limiting the number of workers when using public facilities, such as places of worship, canteens and toilets.
- Providing nutritional supplements and foods for workers.
- Prepare guidelines for workers ranging from workers leaving the residence to returning to the residence.
- Participate in socializing the behavior of clean and healthy living and information about Covid-19 through internal communication media.

For workers:

- If during the factory area, there are workers who are sick, then do not continue their activities and immediately go to the health facilities.
- Workers who have a travel history from a country or zone with local transmission of the corona virus in the last 14 days must inform the company.
- Wear a mask since leaving the house and wearing masks and gloves while in the factory area.
- Maintain a minimum distance of 1 meter (physical distancing and group prohibited during recess).
- All workers must adopt a clean and healthy lifestyle.
- Shaking hands with fellow workers and others is prohibited and consider adopting alternative forms of greeting.
